Prevents dirt and smears ...

... **RC Roller Cleaner**
for pristine print rollers

During the work process, soiling may become deposited on print rollers but not any type of cleaning agent should be used to remove it. Aggressive substances could damage roller surface and impair the printing process. The RC Roller Cleaner from Bizerba was specially developed to clean and service print rollers. It removes lubricant and dust from the printing mechanism and from plastic and rubber rollers.

Good for the environment and mechanical parts

The 250 ml bottle contains an ozone friendly pump spray for regular cleaning to remove dust and lubricant gently from print rollers. Pleasant side effect: the cleaner increases roller grip and reduces new deposits of paper dust.

Good reasons for RC:

- Cleans gently and thoroughly
- Pump spray is easy to use
- Harmless to most plastics
- Leaves ultra clean surfaces
- Highly efficient and economical
